
Quantum Optics Of Confined Systems

review: semiconductor quantum light sources - arxiv - 2 quantum dots are often referred to as “artificial atoms”, as their electron motion is quantised in all three spatial directions, resulting in a discrete energy level spectrum, like that of an atom. **introduction to laser materials processing** - 6 laser theory and operation brief review of laser physics quantum theory of light the quantum theory of light was developed by planck & einstein in the early 1900s.
